## DETAILED ACTION

### *Election/Restrictions*

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 25-30 and 44-49, drawn to the apparatus.

Group II, claim(s) 31-43, drawn to the method of producing lipid vesicles.

2. The “special technical feature” as in claim 25 does not make a “contribution” over the prior art, hence lacks inventive step as cited in the International Search Report, PCT Rule 13.2: A1 Annex B, Part 1(b). Additionally, the “special technical feature” lacks inventive step in reference to US Patent Nos. 5,776,486 and 5,779, 361.

3. A telephone call was made to Marina Larson on August 22, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Saira Raza whose telephone number is (571) 272-3553. The examiner can normally be reached M-F from 9am-5pm.
